About this course

- This course provides foundational level knowledge on cloud concepts; core Azure services; security, privacy, compliance, and trust; and Azure pricing and support.

- The audience for this course is just beginning to learn about cloud computing and how Microsoft Azure provides that service.

- There are two versions of this course a one-day version and a two-day version.

- The content for both courses aligns to the AZ-900 exam objective domain.

- There are no prerequisites for the course, but students with an IT background will find the concepts easier to understand.
